1. We're in it together

VERSE 1

It's good to meet again,
Here with our teachers and all our friends.
There's work to do but that's ok,
We're in it together today.

X2

CHORUS *It helps when you place*

A smile on your face,

To keep those blues away.

A smile and a song

Will bring us together,

Everyone getting along makes a brighter day!
