

## Zids and Zods

Zids have 4 spots.

Zods have 9 spots.

Altogether some Zids and Zods have 48 spots.

How many Zids are there?

How many Zods?

What if Zids have 5 spots, Zods have 7 spots,  
and there are 140 spots altogether?

Find as many solutions as you can.

### Teaching objectives

Solve mathematical problems or puzzles.  
Know multiplication facts to  $10 \times 10$ .  
Add two-digit numbers mentally.
